### ADDITIONAL COMMENTS

*This is tremendous work for a boy your age. Many college seniors cannot play this well!*

*Interpretation is definitely mature for a lad your age. I'm proud to see a lad able to concentrate and work on details.*

### MAJOR STRONG POINTS:

*Pianistic ability, detailed musicianship.*

*There is very little to suggest that maturity will not take care of you not the spots where you stumbled. Make sure all notes and rhythms are correct.*

### MAJOR WEAK POINTS:

*Lack of dynamic contrast (Lack of occasional memory - not to be judged)*

*I enjoyed hearing you so much that I didn't watch too much for detailed errors. You missed key notes here and there, however.*

### SUGGESTIONS FOR IMPROVEMENT:

*Superior work. Keep working as you are. I'd like to hear you five years from now if you continue as you are!*

*Don't let the memory bother you. This is tremendous memory work for a boy your age!*
