I'm sorry it did not work out like she had hoped but I am glad they were watching her so close ! Hug her for me and keep one for yourself! I love you both

It's ok! The water broke so early and 8 hours later she still isn't dilated. They can't wait longer. Usually you're in labor and dialated before your water breaks. He wanted to come on Christmas!!!

Karen Erdy

As long as Talya is ok and the baby is ok that's all we can ask for.

KE

Love the present!

Adam Kontras

Yup! We're a lot more awake this time!!!

It was good for talya to know that even had our doctor been here they couldn't have done it natural because the water broke so early

Karen Erdy

Just keep us informed. Love ya
